Mission Statement

UNFLTR is a culture first creative studio from Bombay.

We blend design, film, and experiences to make brands and artists feel alive.

Every project we touch has one rule it has to feel real.

Raw emotion. Clean execution. Timeless energy.

The III Verticals

* Visuals

* Design

* Events

Three big pictures. Each picture speaks louder than text.

* Visuals

Every video, teaser, or motion piece is crafted like a campaign made to drive attention and emotion.

* Design

Each brand identity or poster is designed with rollout in mind how it looks online, in-store, and on merch. We're not just designing; we're shaping perception.

* Events

Concerts, pop-ups, and brand launches visually documented, shared, and designed to go viral. "The experience is the campaign."
